

Tekron MOFR Codes

MOFR01-	Input type	Output type	Converter	Power supply	
	x	x	x	x	
	2			2	Copper Input
	5			5	Fiber Input
		H		H	High voltage output (high voltage switching MOSFET output)
		L		L	Low voltage output (low voltage output of TTL, RS232 and RS422 outputs)
		A		A	Has isolation transformer for independent AM-IRIG-B input to independent AM-IRIG-B output
		D		D	Has internal converter to take the standard DCLS IRIG-B input and convert to AM IRIG-B output
		L		L	Power supply 14-36 Vdc (nominal 24 Vdc)
		M		M	Power supply 20-72 Vdc (nominal 48 Vdc)
		H		H	Power supply 90-300 Vdc (nominal 110 Vdc)
