

Quick guide to install device drivers on DIGSI 4.x

If you skipped installation of device types(drivers) during DIGSI installation to save time & space but you now require them,

Please refer to the following steps to install the required device types on DIGSI 4.x

Find the setup file used to install DISGI 4.x. (You can use any DIGSI version's setup file for this). You can also download the DIGSI version from HV power website which will have the setup file.
Copy the entire folder to a local network or on your desktop & run the setup file.

ers → Siemens Relays → Technical Information → Software → DIGSL4 → Current Information → DigsLv4.85 → DIGSL4.85
